

Lucra

About Us

Precision compliance
for payments

Our mission is to eliminate authorised payment fraud

Our story starts with our mission

Authorised payment fraud is the fastest growing fraud in the world and affects millions of businesses and consumers globally.

Today's solutions fail at accessing required data to successfully detect and prevent authorised payment fraud.

Lucra was founded to change this.

Our team of lawyers and risk experts with direct experience in authorised payment fraud have built a transformative solution to keep your transactions safe.

At its core

Our technology detects and prevents authorised payment fraud with the most accurate and verifiable data available.

How

We integrate information from banks, credit agencies and other trusted sources into a straightforward verification process, ready to be deployed and operated straight out of the box.

Who

We serve professional practitioners, regulated organisations, and businesses with high risk & value counterparties.

What

Our platform delivers advanced defences against fraud, with reduced complexity and cost, and risk of human error.

Value to you

Safeguarded money. Streamlined processes. Eliminated uncertainties.
